Articles not marked by any sign were published as original contributions in THE LARYNGOSCOPE. All articles marked with a † were published in the proceedings of the New York Academy of Medicine, Section on Laryngology and Rhinology. Those marked with a * were published in the proceedings of the Philadelphia Laryngological Society; those marked with a ‡ were published in the proceedings of the American Laryngological Association.

A

Accessory sinus blindness; differential diagnosis and operative technic,—White, L. E..... 579
Acoustic Method for the Deaf,——Goldstein, M. A..... 444
Acute bilateral mastoiditis. Meningitis asceptic. Operation. Recovery,—Hays, H. M..... 302
Acute meningitis following extradural abscess; seeming recovery. Recurrence after six months,—Loughran, Robt. L.....†267
Alterations of orientation in labyrinth lesions and of the central nervous system,—Lasagna, F..... 922
Angiofibroma of lateral wall of nose,—Laessle, Henry A..... *50
Are there cases of foreign body in the lung impossible of bronchoscopic removal?—Jackson, Chevalier 528
Arrested laryngeal tuberculosis—abscess of zygomatic fossa following pneumonia—exostosis of external auditory canal,—Wieder, Henry S..... 953
Aspergillos of the maxillary sinus,—Skillern, R. H..... 946
Asthma due to maxillary sinusitis; relieved by irrigation,—Bernstein, Max.....†644

B

Boilable tip and connection for politzer bag,—Godwin, D. E..... 41
Bone and cartilage transplantation for saddle-back nose (specific). Prop. operation,—Carter, William Wesley.....†253
Bone transplant (tibia) for nasal deformity,—Stauffer, N. P..... *52
Brain abscess following streptococcus sore throat,—Effler, Louis R. 95
Brain abscess; operation; recovery,—McDougall. Wm. L.....†121

C

Cancer of the larynx,—Thompson, St. Clair..... 522
Case of acute mastoiditis complicated by general septicemia and empyema—operation—recovery,—Wagers, Arthur J..... *45
Case of bilateral abductro paralysis,—Pratt, E. L.....†727
Case of bilateral abductor laryngeal paralysis,—Hubby, Lester Mead.....†196
Case of carcinoma of the larynx removed by suspension laryngoscopy, with subsequent application of radium,—Yankauer, Sidney.....†895
Case of epithelioma of nose,—Hubby, Lester Mead.....†197
Case of focal infection,—Babbitt, James A.....*810
Case of internal pachy-meningitis, leptimeningitis, pansinusitis, cavernous and lateral sinus thrombosis,—Hubby, L. M.....†204
Case of lateral sinus thrombosis with bacillus proteus in blood culture and in the thrombosis,—Kernan, John D.....†384
Case of lupus on the nose,—Hunter, Robert J..... *48
Case of maxillary sinusitis due to a misplaced tooth,—Cohen, Herman B..... *43
Case of modified radical mastoid operation,—Fisher, Lewis..... *47
Case of nasal hemorrhage (postoperative) requiring ligation of external carotid artery,—Cohen, H. B..... 698
Case of operated maxillary sinusitis (Lac-Caldwell) requirisg secondary operation (Denker),—Skillern, Ross Hall..... *44
Cases of post-nasal choanae malformation by bony occlusion,—Kirby, James C..... 701
Case of recurrent aphonia,—Weizenhoffer, Adolph.....†198
Case of sinus thrombosis,—Friesner, Isadore.....†245

396356

Case of syphilis involving the nose and pharynx,—Lukens, Robert....*811
Case of syphilitic laryngitis with a negative Wassermann,—Shuster, Benjamin H. *48
Case of temporary hyperesthesia acoustiea in a patient who had lost both incudes,—Hubby, Lester Mead.....†382
Case of traumatic abducens paralysis,—Friedman, Jos., and Greenfield, S. D..... 868
Cavernous sinus thrombosis of otitic origin,—Maybaum, J. L.....†247
Cavernous sinus thrombosis secondary to peritonsillar abscess, —Kernan, John D.....†259
Cavernous sinus thrombosis, with improvement of symptoms,—Wilson, Norton L.....†882
Chronic atrophic catarrh or fetid ozena,—Reynolds, J. S..... 31
Chronic atrophic rhinitis and ozena,—Jacobs, Louis.....†118
Chronic mastoiditis with an extensive cholesteatoma, — Lampe, Herman F..... 307
Chronic mastoiditis with unusual symptoms,—Schoonmaker, P.....†265
Chronic purulent otitis media,— Schwartz, A. F..... 311
Complete spheno-ethmoid operation,—Yankauer, S..... 831
Complication following needle puncture of maxillary sinus,— Strouse, Frederick..... *60
Complications and sequelae of mastoiditis,—Dench, E. B..... 429
Contribution to the surgery of the tonsils—the hemostatic tonsillectome,—Crane, C. G..... 636
Cosmetic surgery of the nose,— Selfridge, Grant..... 337
Cultivating the balance sense; a prelude to cloud flying,—Hunter, R. J..... 229

D

Death after mastoidectomy with status lymphaticus,—Hubby, Lester Mead.....†250
Death during bronchoscopic attempt of removal of tack in a case of status lymphaticus,— Hubby, Lester Mead.....†201
Death following double Killion operation on frontal sinuses,—Skillern, Ross Hall..... *59
Deformity of the nasal bones following chronic nasal suppuration in a rabbit,—Ryder, C. T., and Mullin, W. V..... 634
Death following injections of novocain,—White, Francis W.....†203
Death following operation for fistula of esophagus, — Ridpath, Robt. F..... *59
Demonstration of general surgical cases at Base Hospital 61, Beaune, France; lantern slides, —Fowler, Robt. H.....†269
Demonstration of instruments for eversion of tonsils,—Lott, H. H...*809
Demonstration of the improved methods of measuring the tonal range, showing progressive development of the apparatus,— Bunch, C. C..... 760
Diagnosis and treatment of maxillary sinusitis,—Dutrow, H. V..... 296
Diagnostic sign of progressive deafness,—Downey, J. W..... 207
Differentiation of early meningitis and mastoiditis,—Mellinger, W. J..... 772
Direct-view, self-retaining laryngoscope,—Unger, Max..... 866
Discussion of differential diagnosis of the central nervous system and the value of functional tests in localization,—Fisher, Lewis.....†657
Does removal of adenoid vegetations prevent acute disease of the middle ear,—Zahorsky, John..... 22
Double acute mastoiditis with systemic infection. Metastases. No demonstrable sinus thrombosis —recovery,—Friesner, Isidor.....†381
Double acute purulent otitis media with mastoiditis, complicated by diabetes and tertiary syphilis. Recovery without operation,— Schoonmaker. Perry.....†266
Double mastoid operation—acute thyrorenal exhaustion,—Callison, J. G..... 359
Double mastoiditis perisinus abscess. Prolonged post-operative temperature. Unusual blood count. Recovery without further operation,—Maybaum, J. L.....†241
Double sigmoid portion of the lateral sinus,—Brown, J. M..... 605

E

Ear massage with a Politzer diagnostic tube,—Shapiro, I. F..... 32
Early stages of hyperplastic ethmoiditis (larval ethmoiditis),— McCullagh, S..... 941
Education of the vestibular sense, —Ruggles, Wm. G..... 6

Educational department: Its history and scope. Demonstration of its work,—Head, Jane B. Walker.....†890
Effect of methodic acoustic exercises on the hearing organ of deaf-mutes, — Urbantschitsch, Victor..... 477
Efficiency of some artificial aids to hearing,—Sabine, P. E..... 819
Emboli following infiltration anesthesia of the septum,—Mackenzie, George W..... *62
End results of a radical operation for carcinoma of the antrum, maxilla and naso-pharynx,—Husik, David N..... *45
Epiphora after extirpation of lacrimal sac,—Gilbert, J. J..... 938
Epithelial inlay in the restoration of the vestibule of the mouth,—Dunning, H. S.....†325
Epitheloma of tongue and two cases of fistual following teeth extraction with chronic maxillary sinusitis,—Cohen, Herman B..... *52
Equilibrium and vertigo,—Lewitt, F. C..... 347
Extension of the League's work into an American Association for the Hard of Hearing,—Phillips, Wendell C.....†894

F

Falsetto voice in the male, with a demonstration of four cured cases,—Greene, James S..... 33
Fibro-lipomata of the membrana tympani,—Vernon, E..... 928
Five cases of foreign body in the lung and esophagus,—Kernan, J. D., Jr.....†329
Further concerning the acoustic neuromas,—Cushing, Harvey..... 209
Future work of the League,—Storey, John de Raismes.....†892

G

Gangosa,—Arrowsmith, H..... 843
Gillies' new method in giving support to the depressed nasal bridge and columella. Lantern slide demonstration; showing of cases,—Sheehan, J. Eastman.....†648

H

Hemangioma of the larynx,—Sweetser, T. H..... 797
Hemorrhage of the ear,—Hays, Harold M..... 20
Hemostatic forceps for ligating vessels in tonsil fossa,—Callahan, J. F..... 717

I

Idiopathic septal abscess,—White, Francis W.....†328
Improved head lamp,—Hays, Harold M..... 878
Influenza mastoiditis,—Smith, J. Morrisset.....†907
Internal drainage of acute ears, and abortion of acute mastoiditis by the use of Sir Almroth Wright's solution,—Leland, Geo. A..... 106

J

Juvenile naso-pharyngeal fibroma —report of case treated by Kocher's osteo-plastic method,—Wall, G. A..... 287

L

Laryngectomy,—Hurd, L. M.....†881
Laryngectomy for carcinoma of the larynx, — MacKenty.....†326
Laryngological aspect of incipient hypothyroidism,—Hubert, L..... 616
Local anesthesia in nasal and throat surgery,—Wilkinson, Oscar..... 27
Lung abscess following tonsillectomy. Report of a case with bronchoscopic and X-ray findings,—Voorhees, I. W..... 609
Lymphatic leukemia with proliferation of lymphoid tissue in tonsil and adenoid regions,—Jasper M. N.....†880

M

Membranous obstruction of the bronchi, clinically diphtheritic with repeated removals with bronchoscope—recovery.. Apparently two new triumphs for bronchoscopy,—Purcell, C. E., and Acree, J. B..... 704
Mixed tumor of the larynx removed by suspension laryngoscopy. with subsequent application of radium,—Yankauer, Sidney .....†896
Modern conception of deafness and its treatment,—Hays, Harold 673
Modern labyrinthology,—Barany, Robert 401
Modified septum sepeculum,—Wolf, Geo. D..... 877
Mosher-Toti operation on the lachrymal sac,—Mosher, H. P..... 284
Myxomatous tumor of the antrum, —Bowers, W. C.....†646

N

Nasal status in retrobulbar optic neuritis,—Gallaher, T. J. 692
Nature's radical mastoidectomy,—Morsman, L. W. 691
Need for more thorough training in otology for undergraduates in medicine,—Newhart, H. 622
Neoplasm of the esophagus compressing the larynx,—Stout, Philip S. *43
New instruments for use in laryngeal surgery,—Lynah, H. L. 116
New intra-nasal suture set,—Isreal, S. 633
New method and a new instrument for endoscopic examination of the maxillary sinus,—Baum, H. L. 965
New method of measuring hearing power by means of an electric acumeter,—Guttman, John. 960
New perichondrium elevator for resection of the septum,—Campbell, C. A. 973
New remedy for Vincent's angina.—King, C. R. 950
New tonsil instrument,—Goodyear, H. M. 999
New tonsil instrument and method of use,—Walker, T. E. 969
New tonsil grasping forceps,—Wolf, George D. †120
Newer motion picture photography of the nose and ear; exhibition of pictures,—Hays, Harold. †254
Nystagmus and its clinical significance,—Neuman, Heinrich. 911
Open safety-pin in larynx six months,—Orton, H. B. 233
Opening of discussion of the relationship of sphenoiditis to diseases of the pituitary body and sella turcica,—Quimby, A. Judson. †652

O

Operative procedure in chronic persistent obstruction in the lachrymal sac,—Brandt, F. H. 191
Otiobiosis (ear tick disease),—Toomey, Noxon. 930
Otitic-temporo-sphenoidal abscess. Operation. Recovery,—Blackwell, Hugh B. †123
Oto-laryngological education,—Wishart, D. J. Gibb. 551
Oto-sclerosis,—Gray, Albert A. 422

P

Peritonsillar abscess and its radical treatment,—Heller, I. M. 236
Plastic repair of the angle of the mouth,—Dunning, H. S. †325
Polypoid degeneration of the lining of the antrum of highmore,—Emerson, F. P. 292
Post-auricular, subperiosteal abscess, simulating mastoid disease, complicating contagious diseases,—Schatz, H. A. *51
Post-operative mastoid hemorrhage,—Ersner, Matthew S. *61
Post-orbital disturbance causing marked exophthalmos,—Ridpath, Robert F. *51
Post-pharyngeal abscess following chronic purulent otitis media,—Schoonmaker, P. P. †264
Primary mastoiditis with perisinus and extradural abscess—operation—recovery,—Glogau, Otto. 318
Principles involved in the X-ray treatment of tonsils,—Witherbee. 305
Progressive deafness,—Richards, Geo. L. †389
Pulmonary complications following nose and throat operations,—Borden, C. R. C. 851
Radical mastoidectomy followed by formation of a false membrana tympani and normal hearing,—Dunlap, L. G. 687

R

Radium in cancer of the larynx, with particular reference to dosage and the dangers of its employment,—Harris, T. J. 872
Recent progress in the surgery of the accessory sinuses,—Moure, E. J. 479
Recurrent laryngeal paralysis (second presentation),—White, Francis W. †328
Reduction of old fractures of the nose,—Whitham, J. D. 620
Re-establishing intranasal drainage of the lachrymal sac,—Mosher, H. P. 492
Relation of the internist to diseases of the middle ear and mastoid process,—Chamberlain, W. B. 862
Report of a case of air embolus by way of the lateral sinus—reaction and untoward recovery,—Quittner, S. S. 603
Report of a case of dislocation of the epiglottis,—Hill, F. T. 320
Report of a case of extensive lateral sinus thrombosis, with special reference to low resection,—Goodyear, H. M. 365

Report of case of cavernous sinus thrombosis following folliculitis of the nares,—Hurd, L. M.....†882
Report of a case of facial paralysis,—Rooker, A. M..... 363
Report of a case of peritonsillar abscess followed by phlebitis of internal jugular vein,—Kirby, J. C..... 926
Report of four cases of radical frontal sinus operation with unusual pathological findings,—Lewis, F. O..... 179
Report of some interesting mastoid complications,—Cariss, W. L.....*807
Results obtained from one year's use of the audiometer in the otological clinic,—Dean, L. W., and Bunch, C. C..... 137
Review of twenty-five years observation in plastic surgery, with special reference to rhinoplastic surgery,—Beck, J. C..... 487
Rhinophyma, a cure by radical plastic operation with a good cosmetic result,—Grattan, James Francis ..... †118
Rupture of internal carotid, following tonsillectomy for peritonsillar abscess,—Monroe, O. L.....†332

S

Sarcoma of the nasal chambers,—Wolf, Geo. D.....†200
Sarcoma of the nose; post-operative condition,—Babcock, J. W...†643
Scope of the League's work, past and present,—Peck, Annetta C...†889
Secondary luetic involvement of the auricle following trauma,—Welford, B. R.....†135
Secondary tonsillar hemorrhage with anaphylaxis, due to the administration of horse serum,—Alexander, L. D., Jr.....†884
Septicemia and death following streptococcus tonsillitis,—Myerson, M. C..... 847
Simple, bloodless and painless operation for the complete extenseration of the ethmoid labyrinth, —Hays, Harold..... 186
Simple, bloodless tonsillectomy with a simple, safe, local anesthesia,—Thompson, John A..... 26
Simple noise apparatus for testing ears separately,—Shapiro, Isidor F..... 114
Some indications for operation on the nasal sinuses in children.—Dean, L. W., and Armstrong, M... 273
Some facts concerning hay fever and asthma,—Gotlieb, M. J..... 957
Some of the more important measurements of parts of the temporal bone,—Amberg, Emil..... 147
Special forms of hay-fever and their disensitization,—Scheppegrell, Wm..... 549
Sphenoidal sinusitis, with marked cerebral symptoms. Operation, Recovery,—Faulkner, E. Ross....†323
Sphenoidal sinusitis with marked cerebral symptoms. Operation. Recovery,—Hubert, L.....†322
Spontaneous cure of malignancy of the throat, with involvement of opposite side one year later,—Hurd, L. M.....†880
Stammering—a bibliography of the past decade—1911 to 1920, inclusive,—Blumel, C. S..... 709
Studies in otology, using the pitch range audiometer,—Dean, L. W... 743
Studies on the lymph drainage of the accessory nasal sinuses,—Mullin, W. V., and Ryder, C. T... 158
Styloid process in sinus tonsillaris, Cohen, Samuel..... *48
Subacute mastoids, operation; acute paroditis; facial paralysis. —King, J. J.....†125
Substitute for rubber tissue as a drain,—Babcock, James Woods.. 251
Suspension laryngoscopy and its problems,—Lynch, R. C., and W. M..... 539
Symposium on border line diseases,—Yankauer, Sidney..... 101
Syphilis as a factor in mastoiditis. producing symptoms of sinus thrombosis. Report of a case,—Shemley, W. G., Jr..... 792
Syphilis of the mouth and throat, —Klauder, Joseph Victor.....*815

T

Technique of a radical frontal sinus operation which has given me the best results,—Lynch, R. C..... 1
Technique of closing the sinus tonsillaris by suturing the pillars of the fauces with the aid of La Force's follow suture needle and ligature knot fastener, —La Force. B. D..... 42
Tests of auditory and static labyrinths and related intra-cranial pathways: report of cases.—McCoy. John. and Gottlieb, M. J... 78
The endocrines in otology,—Sajous, Charles E. de M..... 659

The Laryngoscope twenty-five years ago,—Lederman, M. D..... 570
Three cases of mastoiditis with severe complications and recovery,—Cook, Alice H..... 12
Throat complications of Hodgkins' disease or sarcoma (for differential diagnosis),—Shuster, Benj. D..... *51
Thrombosis of lateral sinus; simple ligation of vein; blood transfusion; recovery, — Smith, J. Morrisett..... †122
Tonşil question up to date,—Keiper, G. F..... 777
Traumatic mastoid (bullet wound), —Dintenfass, Henry..... *816
Traumatic stenosis of the larynx. Second presentation. Moving pictures showing method of dilatation (second presentation), —White, Francis W..... †329
Tuberculosis of the ear with exposure of the facial nerve,—Sautter, C. M..... †125
Tuberculosis of the larynx,—Davis, George E..... †646
Tuberculosis of the middle ear,—Leegaard, Frithjof..... 374
Two cases of deafness with otoneurological findings of unusual interest,—McCoy, M. J., and Gottlieb, M. J..... †132
Two new tonsil crypt evacuators, —Wieder, H. S..... 715

U

Untoward results following operations on the ear and mastoid,—Coates, George M..... *61
Unusual case of bilateral abductor laryngeal paresis, — New, George B..... 630
Use of Carrel Dakin solution following mastoidectomy, — Craig, Stuart L..... †126
Use of scarlet red emulsion in atrophic rhinitis (ozena)—a preliminary report,—Scal, J. C..... 628

V

Vaccine in the treatment of asthma,—Sherman, G. H..... 239

W

War surgery: plastic operations of the face by means of fat grafts, —Roy, J. N..... 65
Work of the Employment Bureau of the N. Y. League for the Hard of Hearing,—Samuelson, Estelle E. ..... †892
